Notes

Arrangements for the dinner will be made available at the conference.

Presenters, please note your time allocation. To ensure time for discussion multiply the number of minutes in your time allocation by 90 and then subtract 900 from the result [i.e. $L = (m \times 90) - 900$, where L = length of script in words and m = total presentation time in minutes]. That should give you the desired word length of script for the time slot.

Monday is a full day and Tuesday slightly shorter to cater for those catching the last flights out of Dunedin in the afternoon. Please plan to be there until the end. We hope the long lunch hours and the free evening will give time for socialising and informal discussion.

Abstracts of the papers will be circulated by email well before the conference.
